

## Second War Loan Campaign Here Nets \$141,368.82, Nearly \$50,000 Over Quota

### Final Efforts In The Drive Bring In Hundreds Of Small Subscribers

When the curtain was rung down on the Second War Loan campaign Saturday evening Sierra Madreans had loaned their government \$141,368.82 for prosecution of the war. They had topped their quota of \$100,000 by almost \$50,000, according to the local committee's report.

The exact number of subscribers had not been totaled yesterday but it was known that in final days of the campaign there had been literally hundreds of bonds of the smaller denominations disposed of to defense workers and other wage earners. Sales totaling \$3,251.25 made through the postoffice were of this class, only Series E bonds being offered there.

Sales made through the Sierra Madre Savings Bank brought in \$135,087.57, with Series G bonds the favorites. They netted \$9,599.20. Series E bonds ran second at the bank, accounting for \$84,135.25 of the total. Third on the list were the 7/8 per cent certificates, sales of which amounted to \$21,000. Next came the 2 1/2 per cent 1964-39 bonds. They brought in \$9,500 and were followed by the Series F bonds which netted \$8,140. Next to last was the 2 per cent 1950-52 bonds that produced \$2,000, and bringing up the rear were the Series and Tax notes that accounted for \$1,112.32.

A roundup of the campaign Saturday evening showed that local citizens had not only oversubscribed the quota given the city, which was expected by the committee, but had considerably exceeded the committee's fondest hopes. The committee anticipated it would go over the top by 25 per cent, with the possibility that 30 would be reached. That, however, was considered to be the limit.

## V Gardeners Will See How To Make Patches Produce

Every step in the preparation of soil, planting and cultivation—including pest control—of a Victory Garden will be demonstrated to patriotic Sierra Madreans at the May dinner meeting of the Garden Club in the Masonic Temple next Monday evening. A series of colored motion pictures amounting to a liberal education in vegetable production will be exhibited by Murray G. McNeil, garden expert of one of the world's largest packing houses who has shown them throughout the West.

Beginning with soil selection and preparation the pictures show how to secure most satisfactory results from the use of fertilizers, the planting of seed, watering, cultivation, trimming and general care of all manner of garden plants.

President F. D. R. Moore of the Garden Club announces that all Sierra Madreans will be most welcome. Dinner will be served at 6:30 and it will be necessary to make reservations by Friday night, May 8, by calling CUster 5-6204.

## WEEKEND TRIP SAVES LIVES OF FAMILY AS FORGOTTEN WELL IN DRIVEWAY CAVES IN

Decision of the A. R. Kendall family of 88 Victoria lane to take a weekend trip and vacation probably saved the lives of its members. During their absence a long forgotten well under their driveway, dug to a depth of 247 feet 35 years ago, caved in, leaving a great gaping hole easily capable of swallowing up a large truck.

Just a day after departure of the Kendalls a neighbor visiting their home to feed their pets discovered a small hole in the center of the driveway. Later in the day the upper rim of the old well, held together by the paved surface, let go leaving a hole several feet in diameter. Weight of an automobile or a person afoot passing over the driveway would have meant certain destruction.

Now owned by Miss Clara Sykes the property where the well was dug jointly by a Mrs. Ballou and Emile Deutsch, father of William Deutsch of West Laurel ave., belonged to Mrs. Ballou

## Convalescent Soldiers Entertained

### Weekly Events For Men From Camp Santa Anita Planned By Red Cross

First of a series of weekly entertainments planned for convalescent Camp Santa Anita soldiers in the Army hospitals at the Passonists monastery and the Elfers estate was held at Wistaria Vine Gardens Monday evening by the recreation committee of the Sierra Madre Red Cross chapter and proved to be a most enjoyable affair.

During an evening of general entertainment, coffee, sandwiches and ice cream were served the 30 odd convalescents by Chairman Hansen of the committee, Mrs. Hansen, Mr. and Mrs. R. C. Lewis, Mr. and Mrs. S. E. Peterson and Mr. and Mrs. Alfred J. Dewey.

The guests seemed to so thoroughly enjoy themselves and to be so appreciative that the Red Cross hopes the townspeople will lend a hand in making the weekly affairs a big success. Mr. Hansen asks that anyone interested in helping to organize them call 4313 or contact the Red Cross headquarters.

## Congressman Has A New Headquarters In Crown City

Congressman Carl Hinshaw who came home from Washington for the Easter holidays and to recuperate from a throat ailment that confined him to the Doctor's Hospital in the national capital for more than two weeks, now has an office in Pasadena, heart of his district. It is in the Pasadena postoffice and will be used by the Congressman as his headquarters during future visits to his constituents.

Since his arrival in the district, Hinshaw received notice of his appointment by Congressman Joseph W. Martin, Republican leader in the House of Representatives, on a Congressional committee to study a wide range of post-war problems. Duty of the committee will be to prepare a program "to best promote a better life for the people of America."

In the short time allowed for his visit the Congressman is getting over as much of his district as possible and consulting groups on the important problems facing the nation.

## Soldiers Believe Baseball Players Belong In Army

First reaction of soldiers to the question of whether professional ballplayers are of more value in the Army or in civilian life seems to be in favor of putting 'em in uniform. That's the way the majority of ballots in the poll being conducted by Camp Santa Anita's paper, Man O' War, are running this week. Final results, will be announced next week.

## Announce Program For Friday Meeting Of Arts Guild

Two outstanding features of entertainment will be presented at the meeting of the Sierra Madre Arts Guild, Friday, May 7, at Wistaria Vine Gardens.

Mrs. Vera Whaley, mezzo soprano, now a resident of Sierra Madre, will sing three numbers. Mrs. Whaley traveled with the Red Cliff Chautauque of Washington, D.C., and was with the Lyceum Bureau of Aurora, Missouri. She also sang three seasons with light opera.

Following Mrs. Whaley, the Sierra Madre Historical Society will present a program of personal reminiscences and glimpses into the doings of the early settlers of Sierra Madre.

## WAAC Lures Another Local Girl

### Grandmother, 88, Will Fly Here From Texas To See Her Inducted Soon

Miss Margaret Sellers, daughter of Mr. and Mrs. B. B. Sellers of 34 1/2 N. Hermosa ave., has been sworn into the WAACs by Lieut. Kay Beatty, assistant recruiting officer for the Southern California area, and will be on inactive status until called for training in one of the WAAC camps.

She was born in Fort Worth, Tex., where she went to high school and later was graduated from the Texas Christian University. She came to California with her family ten years ago, and has resided in Sierra Madre for the past three years.

Miss Sellers was one of three hundred out of 2,000 women who passed an examination for special army supervised training in the use of pressure instruments at McClelland Field, Sacramento. Since completion of her training and prior to enlisting in the WAACs, she was employed as a pressure instrument specialist with the Army Air Force at San Bernardino.

Miss Sellers telephoned her 88-year-old grandmother, Mrs. M. D. Sellers of Fort Worth, Tex., to tell her she had signed up. Her grandmother, who always travels by airplane, said, "well this is as good an excuse to come to visit you as any I know, so I shall fly out to see you inducted, my grand-daughter."

### Unopposed

Mrs. Henrietta Hinkley, secretary of the Sierra Madre school board who seeks re-election, is the only candidate to file for the May 21 school election. Sierra Madreans will also vote for two members of the Pasadena school board, this city being a part of the school district.

## Club Women To Get City's Background

### Historical Society Officers To Speak At Nominating Meeting On May 12

An especially interesting program will be furnished by the Sierra Madre Historical Society for the meeting of the Sierra Madre Woman's Club to be held at the clubhouse, Wednesday, May 12, beginning at 11 a.m.

Mrs. C. W. Bowen, historian of the society, will read a paper about the family history of the late Samuel Twycross, who in the early days operated half a dozen business enterprises in Sierra Madre.

Dr. A. O. Pritchard will tell of the historical background and reasons for naming several of the streets here, and William Lauren Rhoades, president of the society, will tell of the founding of the famous Sierra Madre Villa by his father in the early seventies, and of the gay life on the ranches of the famous Lucky Baldwin and J. L. Rose.

All members are urged to attend this meeting, as nomination of officers will be held at the morning business session at 11 a.m. The nominating committee consists of Mrs. Adria Johnson, Mrs. Charles Klunk and Mrs. C. H. Sandage.

A pot-luck luncheon will be served at noon and the club will provide coffee.

## Observations

By Lee Shippey

LION'S ROAR, the super duper movie bulletin published by MGM and distributed throughout the country to newspapers for publicity purposes, in its latest issue publishes a sketch of Walter Brennan which tells of his career, his hobbies and all that sort of thing. In the concluding paragraph it says: "His 18 square mile ranch in Oregon is a joy to him. So are people with a sense of humor, a spirited horse, the desert, flight with mushrooms, O. Henry, Alfred Dewey's paintings. Will Ames—and worrying."

## OES Will Observe Mother's Day With Breakfast Sunday

The Sierra Madre O.E.S. will serve a Mother's Day breakfast at the Masonic Temple, Sunday, May 9, from 7:30 a.m. to 12:30 p.m. There will be a selection of several breakfast items. No reservations will be necessary and the townsfolk are invited.

## Holy Name Society Sponsors Mother's Day Breakfast

The Holy Name Society of St. Rita's Church will sponsor a Mother's Day breakfast in honor of the mother's of the parish to be served in the parish hall at 9 a.m., Sunday immediately after the 8 o'clock mass. John L. Fitzgerald, president of the Holy Name Society, cordially invites all mothers and their friends to attend.

Arrangements are in charge of the active committee consisting of W. F. Maloney, chairman, Thomas Reynolds, Arthur Otterson, William Burns and Wynne Bradley.

## Teacher Will Don Uniform Of WAVES

### Miss Davidson Of Grammar School Staff Sworn In As Apprentice Seaman

Miss Adele Davidson, a member of the teaching staff of the Sierra Madre grammar school for the past two years, has been sworn into the WAVES as an apprentice seaman and will leave sometime next month for training at Hunter College in New York.

Miss Davidson is the daughter of Mr. and Mrs. Ward Davidson, of San Pedro, where she was born. She was graduated from Compton Junior College, and majored in physical and elementary education at Santa Barbara State Teacher's College. After graduation, she taught in the Covina elementary school for two years, and has taught the seventh and eighth grades and physical education in the local school.

She will probably not be called for training until the end of the school term and expects to continue her work here until that time.

## Wants Soldiers To Get Tax Relief

County Assessor John R. Quinn, is calling attention to the Randall act, which grants tax exemptions to persons who serve the nation in time of war, and requests that applications for its benefits be filed in his office without delay.

This liberal California law has suddenly taken on a much wider significance than heretofore, according to its author, Charles H. Randall, of North Hollywood. While its benefits have been enjoyed by the veterans of previous wars, it now applies also to those serving in the present war, as well as to widowed mothers and other dependents.

Quinn says these tax credits, average about \$50 per year. He has in addition to regular office hours fixed two Sundays, May 9 and 16, from 9 a.m. to 1 p.m. to receive applications.

## Victory Gardens Get A Good Start

High fogs that continued through most of the week held the temperature in Sierra Madre at just about the point where life is most worth living and gave every encouragement to the scores of newly planted Victory Gardens. Here is the day to day story of how the mercury fluctuated:

	Max.	Min.
April 29	77°	52°
April 30	82°	53°
May 1	88°	51°
May 2	87°	56°
May 3	84°	55°
May 4	69°	56°
May 5	68°	55°

## GOVERNMENT SENDING FILMS HERE TO WARN CITIZENS OF FOREST FIRE DANGER

A series of moving pictures to be shown at the request of the U.S. Forest Service in all the foothill cities of this area will be shown on the screen at the grammar school auditorium at 8 o'clock next Wednesday evening, May 12, under the auspices of the Sierra Madre unit of the Forest Fire Fighter Service of which A. M. Udell is the leader.

"We heartily agree with the government service that every resident of a city as close to the forest area as we are should see these pictures," said Mr. Udell, "and if our citizens are as awake to the dangers of forest fires as they ought to be, the school auditorium will be crowded when the pictures are shown."

"The fire hazard in the hills at our northern city boundary has never been greater than it will be this summer when the hot weather has dried out the exceptionally heavy growth of underbrush. We should all know how to help prevent forest fires, how to fight them in the hills when they come and how to protect ourselves here in our homes. The unusually heavy precipitation of the winter season and late into the Spring has left us with a real problem, for the growth is thicker and taller than it has been in several decades. The educational value of the films to be shown cannot be over-estimated, but they are interesting and thrilling besides and altogether worth while for everyone to see. We hope they will come."

## Sierra Madre Subscribes \$10,406.62 To War Fund Of The Red Cross

## Gas Books Of Many To Be Forfeited

### OPA Orders Penalties For Speeders And Improper Use Of "B" And "C" Books

Because Southern California motorists are reputed to be "using up rubber eight times as fast as it can be replaced" by violating the 35-mile speed regulation, rationing boards have begun the wholesale cancellation of supplementary gas allowances of offending car owners, it was revealed this week.

"B" and "C" gas books of scores of motorists have been cancelled for the duration of the war, Frank Balthis, chief OPA attorney announced Monday, and hundreds of others are being penalized on a sliding scale. Those convicted in local courts of driving in excess of 60 miles an hour have lost their books for good and all. Many of those reported for driving over 50 had their extra allowances suspended for from 60 to 90 days.

The big shock is coming to hundreds of others when their present coupons have all been spent and they apply for renewals. OPA attorneys announce their allowances will be greatly reduced for speed regulation violations when new books are issued.

All local courts, police officers and highway patrolmen have been requested to send in the names of speeders and the disposition made of their cases. These are forwarded from the Los Angeles office of OPA to the district ration boards. In most cases where violators have been convicted and fined for speeding the district boards act without further ado. Where drivers have been cited and not fined the district ration officials in most instances call them in for a hearing, just as in a court, and then announce their penalties.

No less a person than Director Prentiss Brown, head of the OPA, announced yesterday that holders of "B" and "C" books will be penalized for use of gas rations intended for occupational driving to visit resorts, amusements and for other pleasure driving, with the probability that many motorists will fail to receive future supplemental supplies.

"The procedure developed will not call for 'snooping and we are not going to stop cars on high-

## Nearly Half Of The Amount Will Be Available For Use Of The Local Chapter

Final report of the Red Cross War Fund campaign committee submitted yesterday by Dr. Arthur O. Pritchard, chairman, shows that Sierra Madreans contributed \$3,156 over the \$7,250 quota assigned the local Red Cross chapter by the National organization. The committee's report follows in part:

Total cash received .. \$9,945.62  
Total pledges ..... 461.00

Total ..... \$10,406.62  
Of this sum 46 2/3% is retained in Sierra Madre, making \$4641.29 to be kept here. The remainder of the amount was sent to the National Red Cross which was \$5304.33.

The number of individual contributions excluding corporations and organizations was 1239. The thanks of the directors is extended to all the workers who took part in the campaign.

## Caltech Extends Training Courses For War Workers

Since many workers in war industries are finding that they need further knowledge of mathematics to carry on their work effectively, the California Institute of Technology is adding to its war training program a tuition-free evening course in fundamental engineering mathematics. Classes will meet two evenings a week on the Institute campus for 18 weeks, beginning about May 10.

The course will provide a basic foundation in the elementary mathematics involved in various fields of war industry. The course is open to men and women high school graduates who have had algebra and trigonometry, or the equivalent. To apply for admission, write or telephone to the War Training Office, California Institute of Technology, Pasadena.

"ways", said Mr. Brown. "However, where the circumstances obviously indicate that 'B' and 'C' rations are being used for non-essential purposes, drives will be interviewed by police and OPA investigators where possible so as to screen out non-violators."

There will be no change in the order which allows "A" card holders to use their small monthly ration of gasoline any way they wish. Brown said it is obviously impossible for "A" card holders to travel very far or very often to race-tracks, or distant resorts.

## U. S. MARINE IN GUADALCANAL AN UNWITTING COLUMNIST

Private Pete Oleson of the United States Marines, a hard-bitten veteran of Guadalcanal, who writes as he fights and pulls no punches, is the actual author of this column, although he doesn't know it—and probably will be astonished to learn that he blossomed into a political columnist at home while resting between battles out in the South Pacific.

From Guadalcanal, in the heat of battle, Private Oleson wrote a letter to his former co-workers at the Marineship Yards near Sausalito, where he was employed until he enlisted in the Marines. It is a letter which might do more to cure absenteeism than a special act of Congress or a directive from the President—and

it deserves to be heard by every worker in every war plant, by every legislator and government official dealing with the problem of lay-offs, and by every American on the home front. The letter follows:

I've wanted to write you for sometime but for the past ten days our gang has been in hell. We chased the Japs across the River and held our ground against mortars, dive bombers, artillery, snipers, bayonets and belly knives. Eight of us had to lay in jungle slime up to our mouths for a whole day because the Japs had the bead on us from two sides. Charlie, next to me, whispered, "I think I can make it", and raised his head for a cautious look. I saw him grin as he drew his Garand forward. That was all. Thank God he died instantly.

A Jap mortar almost got us when a shell exploded about forty feet away. We practically dug our graves that time. I spit blood for an hour. After night-fall the seven of us quietly slithered out of that stagnant pool like crocodiles. The Japs knew we were flanking them and fired wildly. There was about six inches of water and when Ed got hit in the spine with shrapnel, I think he purposely went under. A single sound would have told the Japs our location. About the time you fellows on the swing-shift were knocking off to go home, we hooked up with our platoon again, gave the Captain the exact position of the Japs. A runner crawled to the rear and in fifteen minutes our artillery finished off that pocket of rice-eaters.

An hour after dawn we had our first food in twenty-four

## Women Learn Of Defense Corps Work

Members of the Senior and Junior women's clubs were given an insight into the work of the block mothers and medical service units of the Sierra Madre civilian defense corps at a joint meeting of the two organizations last Wednesday at which the seniors were honored by the younger club.

Mrs. W. R. Dedrick, who organized the Block Mothers and Leaders Organization of the Sierra Madre Defense Corps, told the duties block leaders and mothers will perform in a war-time emergency. Dr. W. B. Heagerty, Chief of Emergency Medical Service told how the first aid and other groups function.

Late in the afternoon a buffet tea was served. Mrs. Dorothy Halperin, senior president and Glean Drury, junior president, attended the tea service. Althea Butler was chairman in charge of the program.

Door prizes were won by C. H. London, Ed Brown, T. L. Tucker, Phyllis Springer, Marjorie Gilmore, Harriette Streuli, W. A. Goodwin, Joe Thompson, and Sheila Colbert.

If every man, woman and child in the United States lays aside \$100 the aggregate will be about \$13,000,000,000 or the amount the Treasury must raise in its Second War Loan.

## Available Now Only For Army And Navy Soapless Soap Will Come Into General Household Use After The War

"Soapless soap", which makes water "wetter", is now used for laundering clothes by American soldiers and sailors on fighting fronts all over the world, according to the Southern California Office of War Information.

Washday in the Army and the Navy is vastly different from the customary domestic Monday washday, continued OWI. Clothing has to be laundered at odd places and at odd moments. Sailors depend wholly on salt water for washing clothes, and Army mobile laundry units on the fighting fronts must take water as they find it.

Most soaps do not "suds up" in salt or hard water, but form greasy curds which leave rings around bathtubs and grime in laundered clothes.

The "soapless" soap was developed by the War Production Board and the chemical industry, working with the Army and the Navy.

For hundreds of years ordinary soaps of the household variety have been made by treating fats and oils with an alkali. Shortages of vegetable oils for making hard water soaps led to the new type of "soapless soap", made with a base of petroleum or coconut. Known in technical terms as a "synthetic detergent", it works in any water by forming a penetrating solution which rapidly and thoroughly wets all fibers in the laundered garments and removes all greasy particles without the formation of any insoluble curds, doing it faster so that there is less shrinkage of fabrics.

The chemists of the Army Quartermaster Corps, in cooperation with industry, have recently developed a toilet soap which will do the job whether the water is rain water, ocean water, hard or soft. Like many other inventions and discoveries, however, these new "all-water" soaps will not be available in quantity for civilian use for the duration of the war.

## BUNDLES FOR AMERICA TO HOLD FOOD SALE

Bundles For America will hold a food sale in front of Brock's Market on Saturday, May 8, beginning at 10 a.m. There will be ready to serve hot casserole dishes, salads and cakes, cookies, and pies. Mrs. Frank Spencer is chairman in charge of the committee.

## ARMY LIEUT. WEDS A GIRL FROM DELEWARE

Miss Esther Janet Birch of Wilmington, Delaware, was married to Lieut. Silas Landerville Wheelock, United States Army, of Putnam, Connecticut, at a seven o'clock ceremony, Monday evening, April 26 in the Church of Ascension. Rev. John S. Neal officiated.

Miss Dorothy Irene Moore of Temple City, served the former Miss Birch as maid of honor and Wilkie James Murray of Sierra Madre was best man for Lieut. Wheelock. Immediately after the ceremony the bridal party drove to the Huntington Hotel for a wedding supper.

Lieut. Wheelock is stationed at Camp Santa Anita. The couple are now at home to friends at 1096 Maylower avenue, Arcadia.

## Nurse Home from the Islands To Be Wed

Miss Claire Ramsaur recently arrived from Honolulu to visit her parents, Mr. and Mrs. L. C. Ramsaur of 585 W. Sierra Madre Blvd. She has been a public health nurse in the Territory of Hawaii, and arrived in Honolulu four days before the Jap raid on Pearl Harbor. She also has been on convoy duty, bringing wounded sailors to the mainland for treatment.

She will remain with her parents to await the arrival of her fiancé, Lieut. (j.g.) Herbert Calvin McWilliams, from the South Pacific, to whom she will be married later in the summer.

## Lunch Box Hints

Once you get the "hang" of packing a nourishing lunch box, it's no more trouble than any other well-balanced meal, according to Mrs. Julia Kiene, head of the home economics department of one of America's largest industries whose idea of a "good lunch" is summed up in these three simple rules: (1) Box lunch must contain one-third of the daily food requirements; (2) must taste good and (3) must carry well.

A lunch box can live up to all the rules of good nutrition and still be a bore. That's why Mrs. Kiene puts great stock in a "surprise a day" to break the monotony. The surprise can be any little treat, such as a wedge of cheese, a stick of gum, dried fruits, shelled nuts, celery hearts, favorite pickles, an apple polished till it shines or an orange scored in sections with the rind pulled back about half an inch for easy peeling.

Scald metal lunch box, especially the thermos, every day as soon as it is brought home and allow them to air until ready to use again. Plus that, you should scald thermos and cork at least twice a week in boiling water to which one teaspoon of baking soda has been added.

## Monastery Rector Tells Purpose Of Retreats

Rev. Angelo Hamilton, C. P., retreat director of Mater Dolorosa Monastery of the Passionist Fathers, spoke to the local Kiwanis club at its Tuesday luncheon meeting about the organization and purposes of Monasteries of the Catholic church.

He said monasteries, probably the oldest institution in the history of the church, originated in the Eastern Catholic church. The retreats at the monasteries are organized for men who wish to come from Friday to Sunday night to meditate, and find a new outlook on life. Most retreats are for Catholic men in public and professional life, but about six percent attending the monastery are non-Catholics. There are monasteries all over the world. Eighteen of these are in the United States.

Because of convalescent soldiers being housed in the monastery here there will be no more retreats as long as they are there, or until the war is over.

He who wishes to secure the goods of others has already secured his own. —Confucius.

Every duty brings its peculiar delight, every denial its appropriate compensation, every thought its recompense, every cross its crown; pay goes with performance as effect with cause. —Charles Midway.

Never has any man plucked the fruit of happiness from the tree of injustice. —Anon.

## Girl Scout Leader To Speak Here

Miss Norma Northberg representative of national Girl Scout organization in the region which includes California and Hawaii, will be in Sierra Madre on May 13th and will speak at the second annual Girl Scout rally for

Mercy to him that shows it, is the rule. Cowper.

### FAITH

When men are in extremity, they turn to their Maker. In the midst of life's present uncertainties, the Bible, always the world's best seller, is more in demand than ever.

More than ever in the world's history, men and women are seeking new meanings for life, looking for the promise of immortality, for the inner resources that make a man strong enough to face his tests.

"Faith is the substance of things hoped for," the Bible reassures us. The soldiers on the battle fronts find this faith. The folks at home, waiting for the news of the battle, find it too.

The King James version of the Bible leads strongly in popularity, but a few modern versions are coming along. All religious publications lead in sales on the book stands now.

### WARTIME NECESSITY

Millions of American women will turn to the home-canning season this year, working to eke out ration coupons, with unrationed shelves of vegetables, fruits, and jams, against the next winter's dwindling supply.

School cafeterias, church kitchens, and local civic centers will be made available for community canning. Committees of neighbors are pooling canning facilities.

The civilian share of the 1943 commercial canned goods is uncertain. Uncle Sam must have about 55 per cent of the fruit pack and about 40 per cent of some vegetables. Both civilians and retailers realize that food for the armed forces will come first. It will be up to the home front army to go into the kitchen and stir the steaming cauldron! Glass jars for fruit and jelly will be available to the extent of transportation facilities, but former closures for the jars are replaced by porcelain with steel rims or by glass. Far seeing retail outlets have prepared for a tripling of family canning and are making themselves arsenals of home canners. Many of them supply recipes received from glass jar manufacturers, the U.S. Department of Agriculture, and other agencies who put out booklets on home canning that won't spoil!

Point value for a can of fruit being 24, and for a can of green beans 14, the essential encouragement for canning already exists! It wasn't so bad to begin with, for most had a few cans ahead of rationing. The pinch will come when present stocks give out. We'd better can everything but the kitchen stove itself this year!

### FIRE FLAMES

By One of the Boys

It is hard to believe that Harold Spears is still confined to bed. The "snoper" stops in to see him once in awhile and on each visit, Harold reports that he will be up in a day or so. He is missed very much. Mrs. Spears, his Helpmeet, has been greatly taxed with much hard work during the long siege of illness and is bearing up under the strain like a soldier.

May Day found Hibbs among the fishermen. He turned out in the most ridiculous hat, covered with all sorts of feathers and hooks. On his face was two weeks growth of gray beard and his shirt showed the wear of many trips thru' the reeds. He has not yet reached the stage where he carries a fancy basket to carry home the fish, but a gift from the firemen on his retirement from the department

### The.... Watch Tower

By Perley Poore Sheehan

ONE WORLD!—and we feel that Mr. Wilkie, in some degree, becomes the godfather of a new age; the title of his book to take on a historical significance like—or surpassing—such markers even as "the Renaissance" or "the Renaissance". Not even the most cynical commentators would apply to Mr. Wilkie their favorite epithets of "star-eyed" and "bleeding heart." Would they? But the implications of his book defy befuddlement. He means *One World*—something all the "Starry-Eyed" and the "Bleeding Hearts" have been calling for since Sri Krishna, since Buddha, since Isaiah, Hosea, Jesus. But here's the hard part—there's always something hard in the good: This ONE WORLD has got to include, of course, Germany and Japan. How about it?

AFTER, of course, the agreed on and indispensable unconditional Surrender. After the Murder Lords of both these areas have been flushed away. As for Germany, her problem must seem to a vast majority of Americans and our British allies as something personal. After all, Mr. Wilkie's people were German—like so many of our ancestors—and could you ask for a better American? Then, too, within the memory of just about every leading British statesman his sovereigns still spoke with a German accent. Did such destroy the sound British quality that endeared King Edward VII to his people? Where the problem of our adjustment to this ONE WORLD does seem baffling and remote—baffling because remote—is in the matter of Japan.

REMOTE, for one thing, because so many reports come in to create the uncanny thought that the Japanese are something other than human, sub or super; in their courage, their cruelty, their self-surrender to the mass—like termites, hornets, or baboons. As to that, we've just been reading a persuasive article by an Englishman, W. E. (Omori) Harris, in the May *Harper's*. Mr. Harris, now a resident of Vancouver, went to Japan about forty years ago and there spent considerably more than thirty years teaching English to a large variety of Japanese, from Imperial princes down through dense ranks of professional men, military and civilian, to store-clerks, obscure artists and artisans. To what conclusion? That practically all our popular pre-and-post-Pearl-Harbor ideas of the Japanese are pure myth—so mythical as often to be almost comic.

THAT IS, that the Japanese are simply what we ourselves might be had we been submitted to the same bitter curriculum as they. A sort of "Dead End Kids" of Civilization, cowed and circumscribed by a gangster minority—not more than four per cent—as ruthless to their native underlings in peace as ever they've shown themselves ruthless to foreigners in time of war. For at least a thousand years, as Mr. Harris points out, the *heimin* or common people, the 96 per cent of Japan's population, had virtually no rights or privileges whatsoever. To them, "the country of Japan hardly even a geographical expression"—the Emperor an abstraction. "To imagine that emperor worship is an age-old thing with the whole Japanese people... is absurd, whatever their present rulers may assert."

BUT WHAT, strangely enough, seems even more timely to any discussion of the Japanese problem is a certain quaint old volume—a book written and published in Japan fifty years ago—written by a group of Japanese professors, *Bungakushi* of the Imperial University of Japan, for the special purpose of presenting Japan to the West as gathered then at the great World's Columbian Exposition in Chicago. Remember it? In 1893—when we, as a nation, were already regarding ourselves as rightfully seated at the head of the table and Japan was still fumbling for a place near the foot—bashfully, apologetic. Listen: "If curious supernatural incidents figure—in the pages of this official history—"... we have to remember that... ordinary events drifting out of sight, extraordinary and supernatural alone survived." So much for the divine origins of the Japanese race.

AS FOR Nippon! Alas for the Truth that makes men supplied him with a fishing pole that is second to none. This is no time for the interest of firemen to wane. We are entering the time of year when fire hazards prevail at all corners. This, combined with war possibilities, makes the work of firemen very important.

### OUR DEMOCRACY—by Mat

WHEN ALEXANDER HAMILTON WAS MADE FIRST SECRETARY OF THE TREASURY BY PRESIDENT WASHINGTON, OUR GOVERNMENT HAD NO MONEY. HAMILTON OBTAINED CREDIT,— ESTABLISHED THE DOLLAR AND DECIMAL SYSTEM OF COINAGE, PAID OFF FOREIGN DEBTS,— PUT THE COUNTRY ON A SOUND FINANCIAL FOOTING.

EACH ONE OF US HAS A PERSONAL STAKE IN THE STRENGTH AND CREDIT OF OUR NATION... EACH ONE CAN HELP WIN THE WAR,— DIRECTLY, AS WE BUY WAR BONDS AND INDIRECTLY THROUGH THE WAR BOND INVESTMENTS OF OUR SAVINGS ACCOUNTS

free! Long ago those Japanese who still sought to promulgate such history were killed or made to recant under torture. Plato's *Dialogues* had already been written since a thousand years before Japan had even learned to write. China taught her how to write, taught her ceramics, painting, architecture, astronomy, medicine, the ethics of Confucius, the philosophy and mercy of Buddha; just as the Western World taught her all the rest. Those Japanese historians of fifty years ago themselves so made acknowledgment, gratefully and without evasion. They knew—as Japan must come to know again—what Mr. Wilkie and the Prophets mean when they say ONE WORLD.

### What They Say ---

Congressman Leroy Johnson, Sacramento — "If MacArthur's flyers can do so much with so little, standing off the persistent Jap strength in the South Pacific, why not give him sufficient air power for the offensive which may bring the end of the conflict into sight."

U. S. Senator Sheridan Downey, here with Military Affairs Subcommittee investigating a man-power—"No one knows where the Japs will strike next. It might well be right here in the heart of the Pacific Coast's great war production centers. We must be prepared."

Gov. Earl Warren, Sacramento — "It is socially undesirable to have 24 hour a day schools. Mothers of small children should work only in daylight hours."

Lt. Robt. D. Rand, Oakland boy describing "4th-dimensional" raid over Bremen aircraft factories—"The Jerries came in right side up, upside down, in formation and in vertical bank. They tried everything in the book."

### STATE PICNICS

The six states composing the New England group will hold their spring picnic at Sycamore Grove, May 15th.

DOROTHY GRAY PERFUMES AND CREAMS

The coeds of the University of California are solving their own manpower shortage! The remaining males on the campus at Berkeley are being rationed! A coed holds an A, B, or C card according to the number of men in her classes. Approaching the rationed "goods", she studies their point value and makes her selection for one "coke" date a month, one week end night a month, and son on! Such a plan overshadows that of the philosophic Professor Joad in England, who studied out the "eight times as many men as women" problem and says wives many is the solution! Himself a bachelor, he reports that he likes one woman for dinner, another for dancing, another for intellectual company, another to mother him. One man, he says, can manage several wives! No noticeable outcry was raised by the women. Tongue in cheek, they mentally viewed his dilemma. For woman, the impossible, might alter overnight from a premarriage dinner-dance companion into a stay-at-home intellectual afterward. Or she might change from the helpless kitten sort before marriage to the possessive mother type later. The "doctor's dilemma" would be pitiable, while the consumer-coed marches home with her rations!

Railroad transportation so far this year is running more than 10 per cent ahead of 1942 volume, according to statistics. The cement industry established a record production last year, but used only 75 per cent of its capacity. Real estate operators have been assured by Col. John J. O'Brien, head of the army's real estate division, that there will be no dumping of the vast land holdings of the War Department after the war.

The Indian Army constitutes the largest volunteer army in the world. It has a larger force serving overseas than any other part of the Empire except the United Kingdom itself. Recruiting has shown no sign of slackening, having reached a record of 70,000 monthly during last summer, when the civil disorders under Gandhi's influence, had reached full tide. During the last three months, 60,000 more men volunteered. This paints a horse of a different color in the Indian picture. The pictures of civil unrest tend to overshadow this more stable view of things.

Rhenium, a rare, silver-colored metal, has been discovered recently in flue dust of American steel mills. It comes from an ore found in the western United States, is heavier than gold or lead, and has war uses that are secret. German chemists originally isolated the named metal.

That sluggish appearing hypocrite that never moves a muscle in day time but pricks up his horns at the first approach of dusk and metamorphoses into the most destructive of garden vandals, is, it appears, blood brother of the imported snail which delights the palates of some gourmets!

In the New York market snails are listed at \$1.25 a pound, with none to be had since the blockades of war have shut off the foreign supply. According to the Victory Garden Council the imported delicacy is exactly the same as that produced in California gardens, lawns and vacant lots—or at least the same as those which have come to their attention in the Bay Area.

Deluged with requests for shipping instructions, the Council warns amateurs to stay their hands unless they really know something about the snail business. However, they do advise

The scientific terms, to the lay vocabulary, mean little, but the upshot is that it is useful for slowing down or speeding up reactions in some patented chemical processes similar to those involving tungsten and manganese. Many discoveries and inventions are coming out of the war of which, for the moment, we know little. But the post-war world promises to be a kaleidoscope of new brilliances.

The food shortage, strange as it may seem, is causing Californians to put on weight, according to medical reports. Reason: Most of the unrationed foods—potatoes, spaghetti, hot cakes, et cetera—are starchy! If you see a Tom Thumb army marching down the boulevard soon, it may not be an optical illusion at all. Passed by the Legislature, and already signed by the Governor, is a bill creating a State Guard company of men too short for regular military service. They'll range in height from 4 feet, 6 inches, to 4 feet, 11 inches.

When we think of industrial America, your minds center on almost any section other than the fertile plains of Kansas, but now we must revise our thought in this respect. For a new crop of heavy industries has sprouted where wheat once grew. Dozens of plants have sprung up. Just outside Kansas City, there's an \$18,000,000 ammunition factory, a \$10,000,000 bomber assembly plant, a shell-loading plant a glider factory, a new aircraft engine plant, an aluminum foundry for casting cylinder heads for plane engines, and scores of other factories. Aviation has taken the lead and the largest single plant in Kansas is an aircraft engine factory which will soon be turning out 2,000 horsepower engines. North American Aviation is making B-25 medium bombers, the kind Brig. Gen. Doolittle used over Tokyo. Kansans say that this new industrial crop is taking root, that it will be there after the war. That means that the entire character of the State may change, and with it will come new problems of marketing and shipping.

THINGS TO COME—Grocery stores with other products, like cook books, magazines, china, non-prescription drugs, to replace rationed business. Battery-powered emergency lights which flash on when power fails in war plants. Refrigerators with push-button revolving shelves. Vacuum-pressure impregnated under lumber which "fixes fibers" so that the wood lasts longer. (This is already here for war uses; it will become available for peacetime construction in larger quantities).

YOUR WARTIME  
Gas Kitchen  
Counselor

Some Pointers on  
your rationed  
fats and BUTTER

Butter and fats are food-value "musts"—so we suggest that you buy butter and shortening first before your ration points go aglimmering for meats!

The Nutritional Yardstick tells you to use three parts of butter or margarine daily for your growth and eyes (Vitamin A). But if necessary, you can catch up with lard, other fats and oils, avocados, mayonnaise, nuts, salt pork, peanut butter and milk. (Milk has enough butter fat for a child's growth.)

You can also save your precious bit of butter by substituting other kinds of fats for your gas range cooking. Use more shortening and cooking oil instead—they take fewer ration points. You can use clarified bacon and ham fat for frying and flavoring vegetables, soups, legumes, spiced cakes and cookies. And for other cookies and cakes—use clarified chicken or turkey fat.

How to clarify fats  
There are two methods of clarifying—(1) to start by melting fat to which raw potato is added; (2) to start by adding 2 cups of cold water to 1 cup of cold fat. In both methods, heat the mixture gradually. When it ceases to bubble, strain through a double thickness of cheesecloth placed over a wire strainer. Place in a metal or glass container and refrigerate.

Save fats for salvage!  
Fats are needed for ammunition! So beef, lamb or pork fat should be strained to remove any foreign particles, and stored in your refrigerator. When you have stored up a pound, turn it in to your butcher for cash.

44 Windsor Lane  
Pastor, Rev. Charlie Rees

Sunday—  
3 p.m.—Regular sermon.

Tuesdays—  
10 a.m.—Bible study.

## OBITUARY

### R. L. FITZWILLIAM

Funeral services were held at St. Rita's Church Tuesday morning for Robert Lee Fitzwilliam who died early Saturday, May 1, at his home, 341 Acacia drive. A resident of Sierra Madre for 18 years, Mr. Fitzwilliam was born in Galveston, Tex., and came to California with his parents in his infancy. He had been a resident of the State ever since and spent most of his life as the manager of rental properties. He was a member of St. Rita's Church and of the Holy Name Society.

He is survived by his wife, Grace Fitzwilliam, and a sister, Mrs. Louise Nave, of San Jacinto. Interment was in Calvary Cemetery and pall bearers were John L. Fitzgerald, Lloyd B. Welch, Thomas Reynolds, William Burns, L. F. Bartel and Mr. Dufner.

## Playhouse Summer Festival Features Tarkington Plays

Paying play tribute to one of America's most beloved writers, Pasadena Community Playhouse announces its 9th annual Midsummer Drama Festival, June 22 to August 15, to include eight plays by Booth Tarkington.

On a recent Eastern jaunt Playhouse director, Gilmore Brow, conferred with The Gentleman from Indiana at his Indianapolis home and reached agreement on the Festival list.

Variety is spelled in letters of comedy, drama and romance as locale changes the setting from a wide countryside to a brightly costumed parade of another day's France and Italy, then back to the cracker-barrel in the corner store.

The plays and their order will be: June 22-27, "The Man From Home"; June 29-July 4, "Intimate Strangers"; July 6-11, "Colonel Satan"; July 13-18, "The Country Cousin"; July 20-25, "Mister Antonio"; July 27-Aug. 1, "Your Humble Servant"; Aug. 3-8, "Monsieur Beaucaire"; and Aug. 10-15, "Seventeen".

## CHARLES PETERSON IS RECOVERING

Friends of Charles Peterson, popular Sierra Madrenean, who was taken suddenly ill last week, will be glad to know that he is resting comfortably at the Huntington Memorial Hospital in Pasadena. Friends may see him during the visiting hours at the hospital between 2 and 4 o'clock in the afternoon and 7 and 8 o'clock in the evening.

The cause of his illness has not yet been determined. He resides with his wife, and two children, Danny and Muriel at 71 Suffolk ave.

## Local Guard Unit In Field Manuevers And Contests

Sierra Madre's State Guard unit participated with a thousand other guardsmen of the San Gabriel Valley in a field day, manuevers and review on the Huntington school grounds in San Marino Sunday. Members of the local troop made a creditable showing in the many contests in which they were entered, but came away from the tournament without any prizes or medals.

Drills and military contests were judged by officers from Camp Haan, Riverside, who expressed satisfaction with the manner in which the Guardsmen handled themselves and predicted that members of the organization joining the Army would enjoy a distinct advantage in the matter of advancement over less experienced and untrained men.

The local unit meets each Wednesday at the City Hall at 8 p.m., and drills on the public school grounds. The ranks are now open for enlistment and Lieut. Embree requests all men who are interested in joining the local troop to leave their names at the city hall or phone 6528.

The McCollister Bill, recently passed in the state legislature and signed by the Governor on Monday makes the state assume the expense for all State Guard equipment, whereas before each guardsman had to pay for his uniform and equipment.

## Short Gas Rations Keep Fishermen Near Home May 1

Because of short gas rations, many of Sierra Madre's fishing enthusiasts who generally hike off to far away mountain streams on the opening of the trout season, May 1, few ventured further away than Santa Anita dam when the season opened this year on Saturday. Daylight disclosed a ring of local disciples of Ike Walton and many from nearby cities lined up along the waters edge back of the dam in big Santa Anita Canyon. Others hiked back to Bear Creek and the West Fork of the San Gabriel where the streams were stocked last fall. A few brought back limit catches, but most of the trout were small.

Where Tom Neale and a couple of associates hooked limits of pretty good sized trout was a good deal of a secret. They pretended they came from the Big Santa Anita but other local fishermen who spent the day up there declared they had seen none of the Neale party. The impression was the fish came from Puddingstone dam.

Thirteen billion dollars is the sum the Treasury must raise in the Second War Loan drive, is only one sixth of the estimated cost of the war for the fiscal year of 1943.

Be you omnivorous, granivorous, carnivorous, herbivorous, or ichthyophagous, here's food for the mind. Take a helping of nutriment.

1. What band of men spent their lives in quest of the Holy Grail? (a) The Crusaders, (b) King Arthur's Knights of the Round Table, (c) The Huguenots, (d) The Hussites. ☐

2. She found a million dollar business in a five-and-ten-cent store. Who is it? (a) Gloria Vanderbilt, (b) Brenda Frazier, (c) Babs Hutton, (d) Wally Simpson. ☐

3. President Roosevelt has as a pet a little Scottie. We'll give 20 points if you can give its name. (a) Falla, (b) Rover, (c) Smoky, (d) Hiedi. ☐

4. Who killed Cock Robin? (a) A hunter, (b) it was suicide, (c) the sparrow, (d) an alley cat. ☐

5. In American history, who was the hero of the Battle of Lake Erie? (a) John Paul Jones, (b) Commodore Perry, (c) Stephen Decatur, (d) Farragut. ☐

6. Post-season bowl games in football attract a lot of attention. We hope you can remember that the Cotton Bowl is in (a) San Antonio, (b) Miami, (c) New Orleans, (d) Dallas. ☐

7. Which of the following is not a poisonous snake? (a) The adder, (b) the boa constrictor, (c) the rattlesnake, (d) the cobra. ☐

## "GUESS AGAIN" ANSWERS

1. (b) a good start for 15 points.  
2. (c) and 15 more.  
3. 20 as we promised for (a).  
4. (c) with his little bow, 10 pts.  
5. 15 for (b).  
6. (d) is only worth 10 more.  
7. Add 15 points on answer (b).  
YOUR RATING: 90-100, the nuts; 80-90, brought home the bacon; 70-80, don't crab about your score; 60-70, guess again!

All Edison service in these wartimes is war service. In a total war in which everyone, fighter, war worker and civilian, is mobilized, all of the electricity we deliver helps out in the war effort.

Serving war production of all kinds, and including the many Southern California Army and Navy establishments, the Edison Company in 1942 furnished the equivalent in electric power of at least 10,000,000 man-years of energy.

This company takes pride in its war service. We are proud that despite the greatly increased service load, increased wages and other higher operating costs—and a large increase in taxes—there has been no increase in the cost of power to our consumers.

On the home front, domestic electricity is still one item in the family expenses which has not increased in cost. It has dropped in relative importance until it is only a fraction above one percent of the total average cost of living.

And there has been no rationing of electricity. In response to every call for electric service—from our regular customers; the new wartime producers or the armed services—we have responded promptly, "Present and ready for duty."

## Many Nations To Join In Observance Of I Am An American Day, May 16

As a symbol of their patriotic unity in the war effort, foreign-origin groups of the Southland, representing 26 nations, will join in a huge mass celebration of "I Am An American Day" on Sunday, May 16, at the Southern California Golf and Country Club, formerly Midway Country Club, Garvey and Atlantic blvds.

First of its kind on a pretentious scale ever to be staged here, the affair will be a combination picnic, pageant and War Bond rally and plans are being made for an attendance of at least 25,000 men, women and children. Ruben A. Calderon, chairman of the foreign-origin groups of the Treasury War Savings Committee, sponsors of the event, announced. It will be a part of the national observance of "I Am An American Day," set aside by Presidential proclamation for public reaffirmation of loyalty to America and its democratic ideals.

Arrangements have been made for thousands of the 26 nationals to attend in native costumes. Many of them will take part in the program of music, folk dancing, bond auctions and athletic events.

Platform appearances will be made by prominent personalities including Gov. Earl Warren, mayor of many cities, Mrs. Eleanor MaAdoo and many motion picture and radio stars. Four bands have been obtained for the occasion, Calderon announced. They are Rudy Vallee's, the Canadian Legion's, the Foreign Legion's and the Scottish Bagpipers. Besides the 50-girl Monterey Lugie and Drum corps. A Russian Cossack choir will sing. Ballet dancers and other artists of the various nationalities will perform. Admission will be free.

### PUBLIC NOTICE

#### NOTICE OF ELECTION

For Member of the Governing Board of the Sierra Madre City School District

NOTICE IS HEREBY GIVEN TO THE ELECTORS OF THE SIERRA MADRE CITY SCHOOL DISTRICT OF LOS ANGELES COUNTY, CALIFORNIA, that the Annual Election for members of the Board of Trustees of the Sierra Madre City School District will be held on the third Friday May, viz, May 21, 1943.

It will be necessary to elect 1 member.

The polling place for said electors of the Sierra Madre City School District will be at the Sierra Madre City Elementary School in the Sierra Madre City Elementary School District.

The polls will be open between the hours of 1 o'clock A.M., and 7 o'clock P.M.

The officers appointed to conduct the election in the above-named Elementary School District are:

Mrs. Ora A. Caskey—Inspector  
Mrs. Marie C. Lord—Judge  
Mrs. Maude Adams Young—Judge

(SIGNED) Henrietta G. Hinkley  
Clerk/Secretary  
May 6-13-20

## Kate Smith Brings Moon Over Sierra Madre For Soldiers

"Moon comes over Mountain". That is the banner line in bold type across the top of page one in the current issue of "Man O' War", camp newspaper of the soldiers at Camp Santa Anita. Immediately under the banner, in bold black type, is the sub-head "Kate Smith Finally Gets It Over Sierra Madre". Then follows a story about a broadcast by Kate Smith held in the grandstand of the famous racing plant Friday night.

In the same issue of the paper appears the following story, under the caption "Yep":

Pvt. Jack Tierney, C of Hq., wrote a GI friend in Muroc a glowing description of Camp Santa Anita's beauty and conveniences. And he wanted to know about the Muroc camp. A few days later the friend replied:

"In the morning we open the front door and the sand blows in. At night we open the back door and the sand blows out. Monotonous, isn't it?"

And under the heading "Don't Put On Sunbans until May 10, Fellas", appears another page one story as follows:

Instead of squirming into your sunbans tomorrow, (May 1), as was originally scheduled, the day to begin shifting from your ODS has been delayed until May 10.

The uniforms can be worn off the post after duty hours, or if you think this California weather after dark is too cool, stick your shafts into the ODS.

But don't start wearing sunbans until May 10.

Workers in a Michigan refinery fixed up a very low, false door leading to the pay office. On it is inscribed, "You will learn to duck lower if you don't buy a Bond."

### PUBLIC NOTICE

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF LOS ANGELES

NOTICE OF HEARING OF PETITION FOR PROBATE OF WILL

In the Matter of the Estate of Robena Alcorn, also known as Robena I. Alcorn, deceased.

Notice is hereby given that the petition of Margaret Schwartz for the Probate of Will of Robena Alcorn, etc., Deceased, and for the issuance of Letters Testamentary thereon to Petitioner will be heard at 9:15 o'clock A.M., on May 21, 1943, at the court room of Department 24, of the Superior Court of the State of California, in and for the County of Los Angeles.

County Clerk.  
by H. L. DOYLE,  
Deputy.

Dated April 28, 1943.

NOREN EATON  
279 East Laurel Avenue  
Sierra Madre, California  
Attorney for Petitioner.  
May 6-13-20

## PRICE OF LIVESTOCK HAS SOARED IN TEN-YEAR PERIOD; CONSUMER PAYS PIPER

By R. L. BONEBRAKE

A comparison of present prices of live-stock, as paid to growers now, with prices they have received in the past, is interesting in view of the prices consumers are paying now for meat.

The top prices paid by packers, at the Union Stock-yards, per hundred weight, on April 19, 1943, April 19, 1933, April 19, 1923, and in 1907 is shown in the schedule below:

	Steers	Heifers	Calves	Lambs	Hogs
April 19, 1943	\$17.15	\$16.15	\$17.00	\$16.25	\$16.00
April 19, 1933	5.50	5.20	5.00	5.00	4.00
April 19, 1923	8.00	7.00	11.00	12.75	9.80
April 1907	4.00	3.50	4.00	4.00	4.00

Prices, as will be seen by the above table, for all classes of live-stock, are now about four times as much as they were in 1907, and about three times what they were in 1933.

In the latter year, leafy hay sold for \$10.00 to \$11.00 per ton, and feed barley for 75c per hundred weight.

On April 19, 1943, the same hay sold for \$36.00 per ton, and barley for \$1.85 per hundred. These prices are wholesale.

Prices for range land, suitable for raising stock, sold for about \$3.00 per acre, in 1907, and sells at the present time for \$12.00 to \$15.00 per acre.

## Restrictions On Changing Of Jobs Is Explained

Because of considerable confusion arising out of Manpower Commissioner McNutt's recent ruling restricting job changing, and conflicting stories from Washington about the order the Merchants and Manufacturers Association of Los Angeles has issued a bulletin highlighting its provisions.

The order provides that any person employed in non-essential industry during the preceding 30 days, or any person unemployed for 30 days may take employment anywhere at authorized rates of pay.

Anyone who has been employed in essential industry within the immediately preceding 30 days cannot change to another job at a higher rate of pay than that most recently earned. However, an essential war industry worker who has been discharged, laid off for a period of more than seven days or who has not been utilizing his maximum skill on his present job, may secure an availability certificate through the War Manpower Commission, and be eligible for employment in other essential industry at rates of pay now authorized, even though such rate be greater than that most recently earned.

No statement of availability will be issued solely on the ground that the employee's wage is less than that prevailing in the locality for similar work.

Both employer and employee are subject to penalties for violation of the order. Penalty may be as high as a fine of \$1,000 and a year's imprisonment.

### BUY HOME HERE

Mr. and Mrs. Frank Seager, former residents of Escondido, are among the recent newcomers to Sierra Madre. They have bought the Coleman property at 633 W. Montecito ave., where they are making their home. They are also one time residents of Blythe. At Escondido they operated a large lemon orchard, and are very sure they are going to enjoy their residence here.

## U. S. Marine

Continued from Page One

hours. Dead tired, we tried to sleep on some palm fronds. But a bunch of Zeros came over and spit at us. Louis was carrying some canteens of drinking water and his number was up. Sometimes, I wish every fellow I know could spend just one day and one terrifying night out here with us. There would be more aching bellies and not so much bellyaching. The only whistles on Guadalcanal are the screaming kind that go overhead.

Remember me to the gang in the yard. So long and good luck. Pete Oleson.

P.S.—Was just talking with the pilot of a B-17 that arrived from the States less than an hour ago. He said that one day last week there was quite a heavy rain and that 1,064 shipyard workers didn't work. I wish he hadn't told me that. Pete.

## Can't "Fix" Bugler

Twenty times, day and night, the dulcet tones of the bugle call Camp Santa Anita soldiers to various tasks and duties. And there's no way of bribing the bugler, or hiding the bugle—it's done by recordings over a public address system. A score of loudspeakers on the roof of the grandstand of the former racetrack carries the calls to the most remote corners of the camp and they are often heard in Sierra Madre at night and in the early morning.

## READ THE CLASSIFIED ADS

### Classified Rates And Instructions

Ten cents per line for the first insertion; 7 cents per line for subsequent insertions. In order to avoid a charge of 25 cents to cover bookkeeping and collecting, unless you have a ledger account it is desirable that all classified advertisements be paid in advance. Classified Ads received after 10 a.m. Wednesday may be run under heading "Too Late to Classify."

## 'Round The Town

Pvt. O. A. Vogel, U.S.M.C., stationed at Camp Pendleton, spent the Easter weekend with Mr. and Mrs. A. J. Barkman of 40 S. Michlinda blvd.

Mr. and Mrs. Kenneth Bush and Ensign and Mrs. James Nichol. son were dinner guests at the Warren Silliman home at 126 Lowell ave., Easter Monday night.

Prosper Grievolt, World War I veteran and long time resident of Sierra Madre came up from Sawtelle Saturday to spend Easter with his family. He has been at the Sawtelle war veterans home for some time.

Frank Lovell, former garage operator here and now a resident of S. San Diego, was up for a visit with local friends over Easter.

Mr. and Mrs. W. S. Pinkerton of 232 Santa Anita ct., have returned from a visit with their daughter and son-in-law, Mr. and Mrs. Keith Taylor of Mariposa, Cal. Mr. Taylor is assistant ranger at the Mariposa Ranger Station.

Misses Clara and Ida Fuestuck have returned from Claremont where they spent Easter with their sister and brother-in-law, Dr. and Mrs. Irving E. Miller of Bellingham, Wash. While there they attended the commencements of Pomona College and Scripps College.

Mrs. W. S. Hull of 542 W. Montecito ave., her daughter, Mrs. Robert Baugh, and Mrs. Baugh's daughter, Dixie of Pasadena, returned last week from Kingman, Ariz., where they visited Mr. and Mrs. Charles Hull. Elizabeth Doty, Ruth Miles and Jean Tate were members of a theatre party that say Ed Wynn in Hollywood on Sunday.

Miss Jeanne Wadell, daughter of Mr. and Mrs. Hugh C. Wadell, Jr. of 425 Canon ave., has just returned home for summer vacation from Pomona College.

Mr. and Mrs. George Tyler and son, Trent, of Long Beach, were weekend visitors at the home of Mrs. E. L. Jackson, Mrs. Tyler's mother.

Mrs. Mary Schwartz, wife of William Schwartz now on an Army construction project in the Redwood City area, went to St. Luke's Hospital Tuesday and underwent an operation Wednesday morning, that was pronounced successful by attending physicians who said her condition is satisfactory.

On Saturday, Mrs. Walter Nollac entertained members of Brownie Troop No. 6, at a May Day party at her home, 507 E. Grand View ave., honoring the birthday of her daughter, Marilyn Nollac. Assisting Mrs. Nollac for the afternoon were Mrs. R. W. Carlson and Mrs. Everett McClintock.
